

SOUTH BOUGAINVILLE DRIVE MEDIAN PARKING SPACE PROJECT

MARCH 22, 2013

FOR MORE INFO, CALL PUBLIC INFORMATION
OFFICER STEVE d'OLIVEIRA AT 954-640-4209.

NEW PARKING PROJECT IS COMPLETED

The construction part of this project is done! Some minor punch-list items are still in the process of being wrapped up.

Parking meters will be added within the next few weeks. Until then, parking is free!

Twenty-six new parallel parking spaces were added along with four new median islands. These new spaces are vital to the Town, because some parking will be lost on Anglin's Square when the streetscape project there begins in the spring.

Bougainvilla Drive south of Commercial Boulevard is one of the few locations in the Town where more parking can be created within the existing right-of-way.

The parking project will help slow traffic on this open section of the street, add much needed landscaping and provide parking to Town residents and visitors.

Access to normal parking spaces will not be blocked during the project. However, direct access may sometimes be limited from the east or west side of the road.

If you have any problems or special needs, please contact **Keith Mote** at **Flynn Engineering Services**. He can be reached at **954-522-1004** or **954-303-5836** (cell). His e-mail address is kmote@flynnengineering.com.
